

ROUTES/ROUTINES

Director: Peter Roloff
& Oliver Behnecke
Genre: documentary
Duration: 20 min.
Format: XDCAM EX

Synopsis

Small stories of commuting.

Conversations going over the River Weser – in trams, local trains and on a car-ferry.

Stories were collected of passengers in conversation during brief and more extended trips through Bremen and its vicinity: where are they travelling to, where are they coming from, is commuting itself a respite from the banal?

In the film we hear the commuters and see the landscape during these daily journeys over the River Weser. A cinematic map of travel in daily life.
